

Dear Student

Congratulations on your decision to book into a Getabout or Tow-Ed course.

We pride ourselves on delivering a professional and memorable course that will meet your specific needs.

Essential Reading

Most of our courses require some pre-reading of training material. To ensure that you have an excellent learning experience you will need to do some pre-course homework- this ensures that you have read the training material and have brushed up on the theory prior to attending the course. Read the handbook thoroughly and attempt the exercises. This may take a few hours, so leave yourself enough time to take it all in before you attend the course. It is **essential** that you complete the written assessment before you attend the course.

All Students

Take your completed assessment to the course with you, where it will be marked by your Instructor. If you have answered any questions incorrectly the Instructor will review them collectively so that everyone in the class has the same underpinning knowledge. This is also a great time to raise any questions that you may have about your assessment or anything in the course handbook.

The Practical components

Throughout the day, various assessments will be conducted. The assessment process will be explained to you during the introduction to your course. To get the most out of your training, participate as much as possible, This will help instill the knowledge and skills to be competent.

Training Presentation Method

- 1) The Trainer will demonstrate the competency.
- 2) Then the Trainer will assist you to master the competency.
- 3) Then you will demonstrate the competency to the Trainer Assessor.

Training Assessment

The course consists of theory and practical sections. The theory will provide background information to assist with the understanding of the practical section. Theory presentation is typically conducted to establish the trainee's specific needs and understanding.

The aim of the assessment is to ensure trainees understand the techniques and its application.

Refining these techniques can only come with practice.

The Instructor, a qualified Workplace Assessor, progressively assess trainees during the Practical Phases as either – Satisfactory (S) or Not Yet Satisfactory (NYS) against the assessment criteria

Final assessment can only be conducted after trainees have been shown and understand the techniques and have had sufficient time to practice.

The assessment may take many forms, written questions, oral questions and practical demonstrations are the main ways that you will be assessed during your training however you may also be asked scenario questions and will need to supply evidence of your abilities in other ways, including completing the questionnaire.

There is opportunity for recognition of prior learning available, (please contact us for more information at info@getabout.edu.au)

We will recognise the AQF qualifications and Statements of Attainment issued by other RTO's. Copies of certificates need to be sighted before the student can be exempted from, or admitted to, the course chosen.
